Pavilion spatial projection

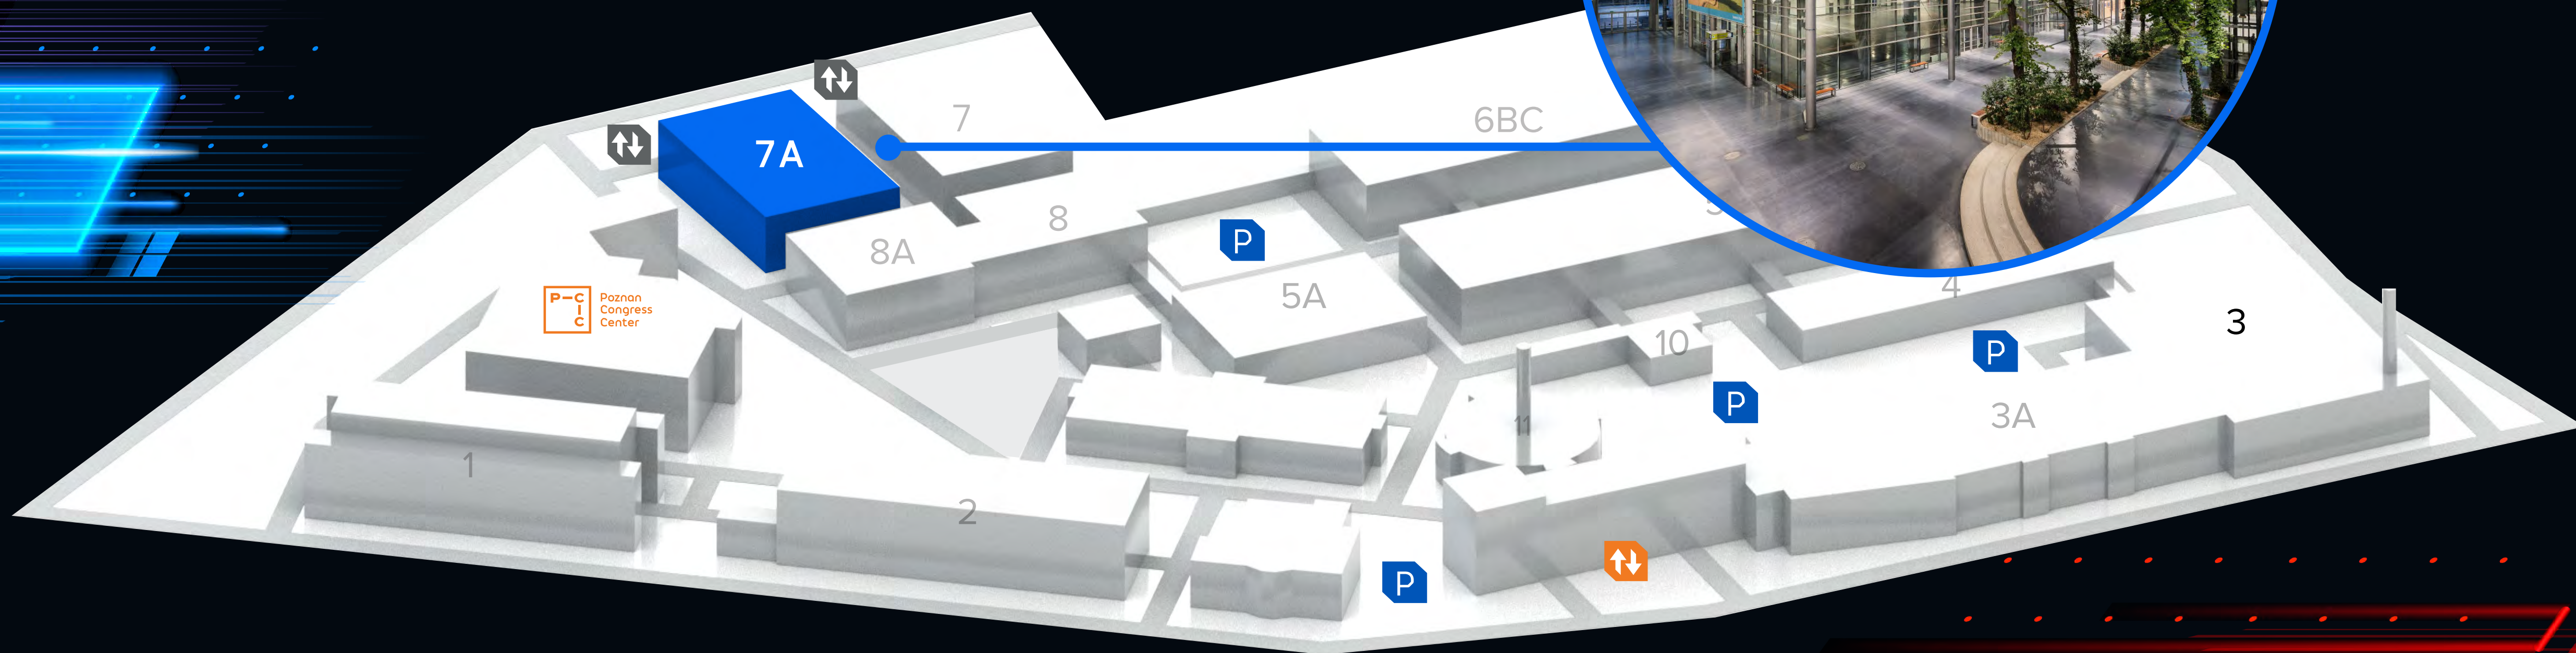

Fully equipped space

- ✓ over 500 m2 of diode screens
- ✓ sound system
- ✓ slighting
- ✓ main screen on stage with dimensions: 15m x 8m
- ✓ 4 side screens and 7 additional screens on the side walls of the pavilion
- ✓ holographic mesh on the front of the stage
- ✓ turntable on the stage for car presentations (reinforced structure up to 3.5t)
- ✓ driveway enabling the car to enter the stage
- ✓ in the package: 2 operators, 2 cameras, technical implementation and 3 multimedia presets to choose from
- ✓ surtains that will effectively silence the space

Location

The Poznań International Fair (MTP) is an excellent location - situated in the centre of Poznań, opposite the main railway station. The modern Pavilion 7A, part of the prestigious "four-pack" complex at the Poznań Congress Center, offers ideal conditions for organizing events.

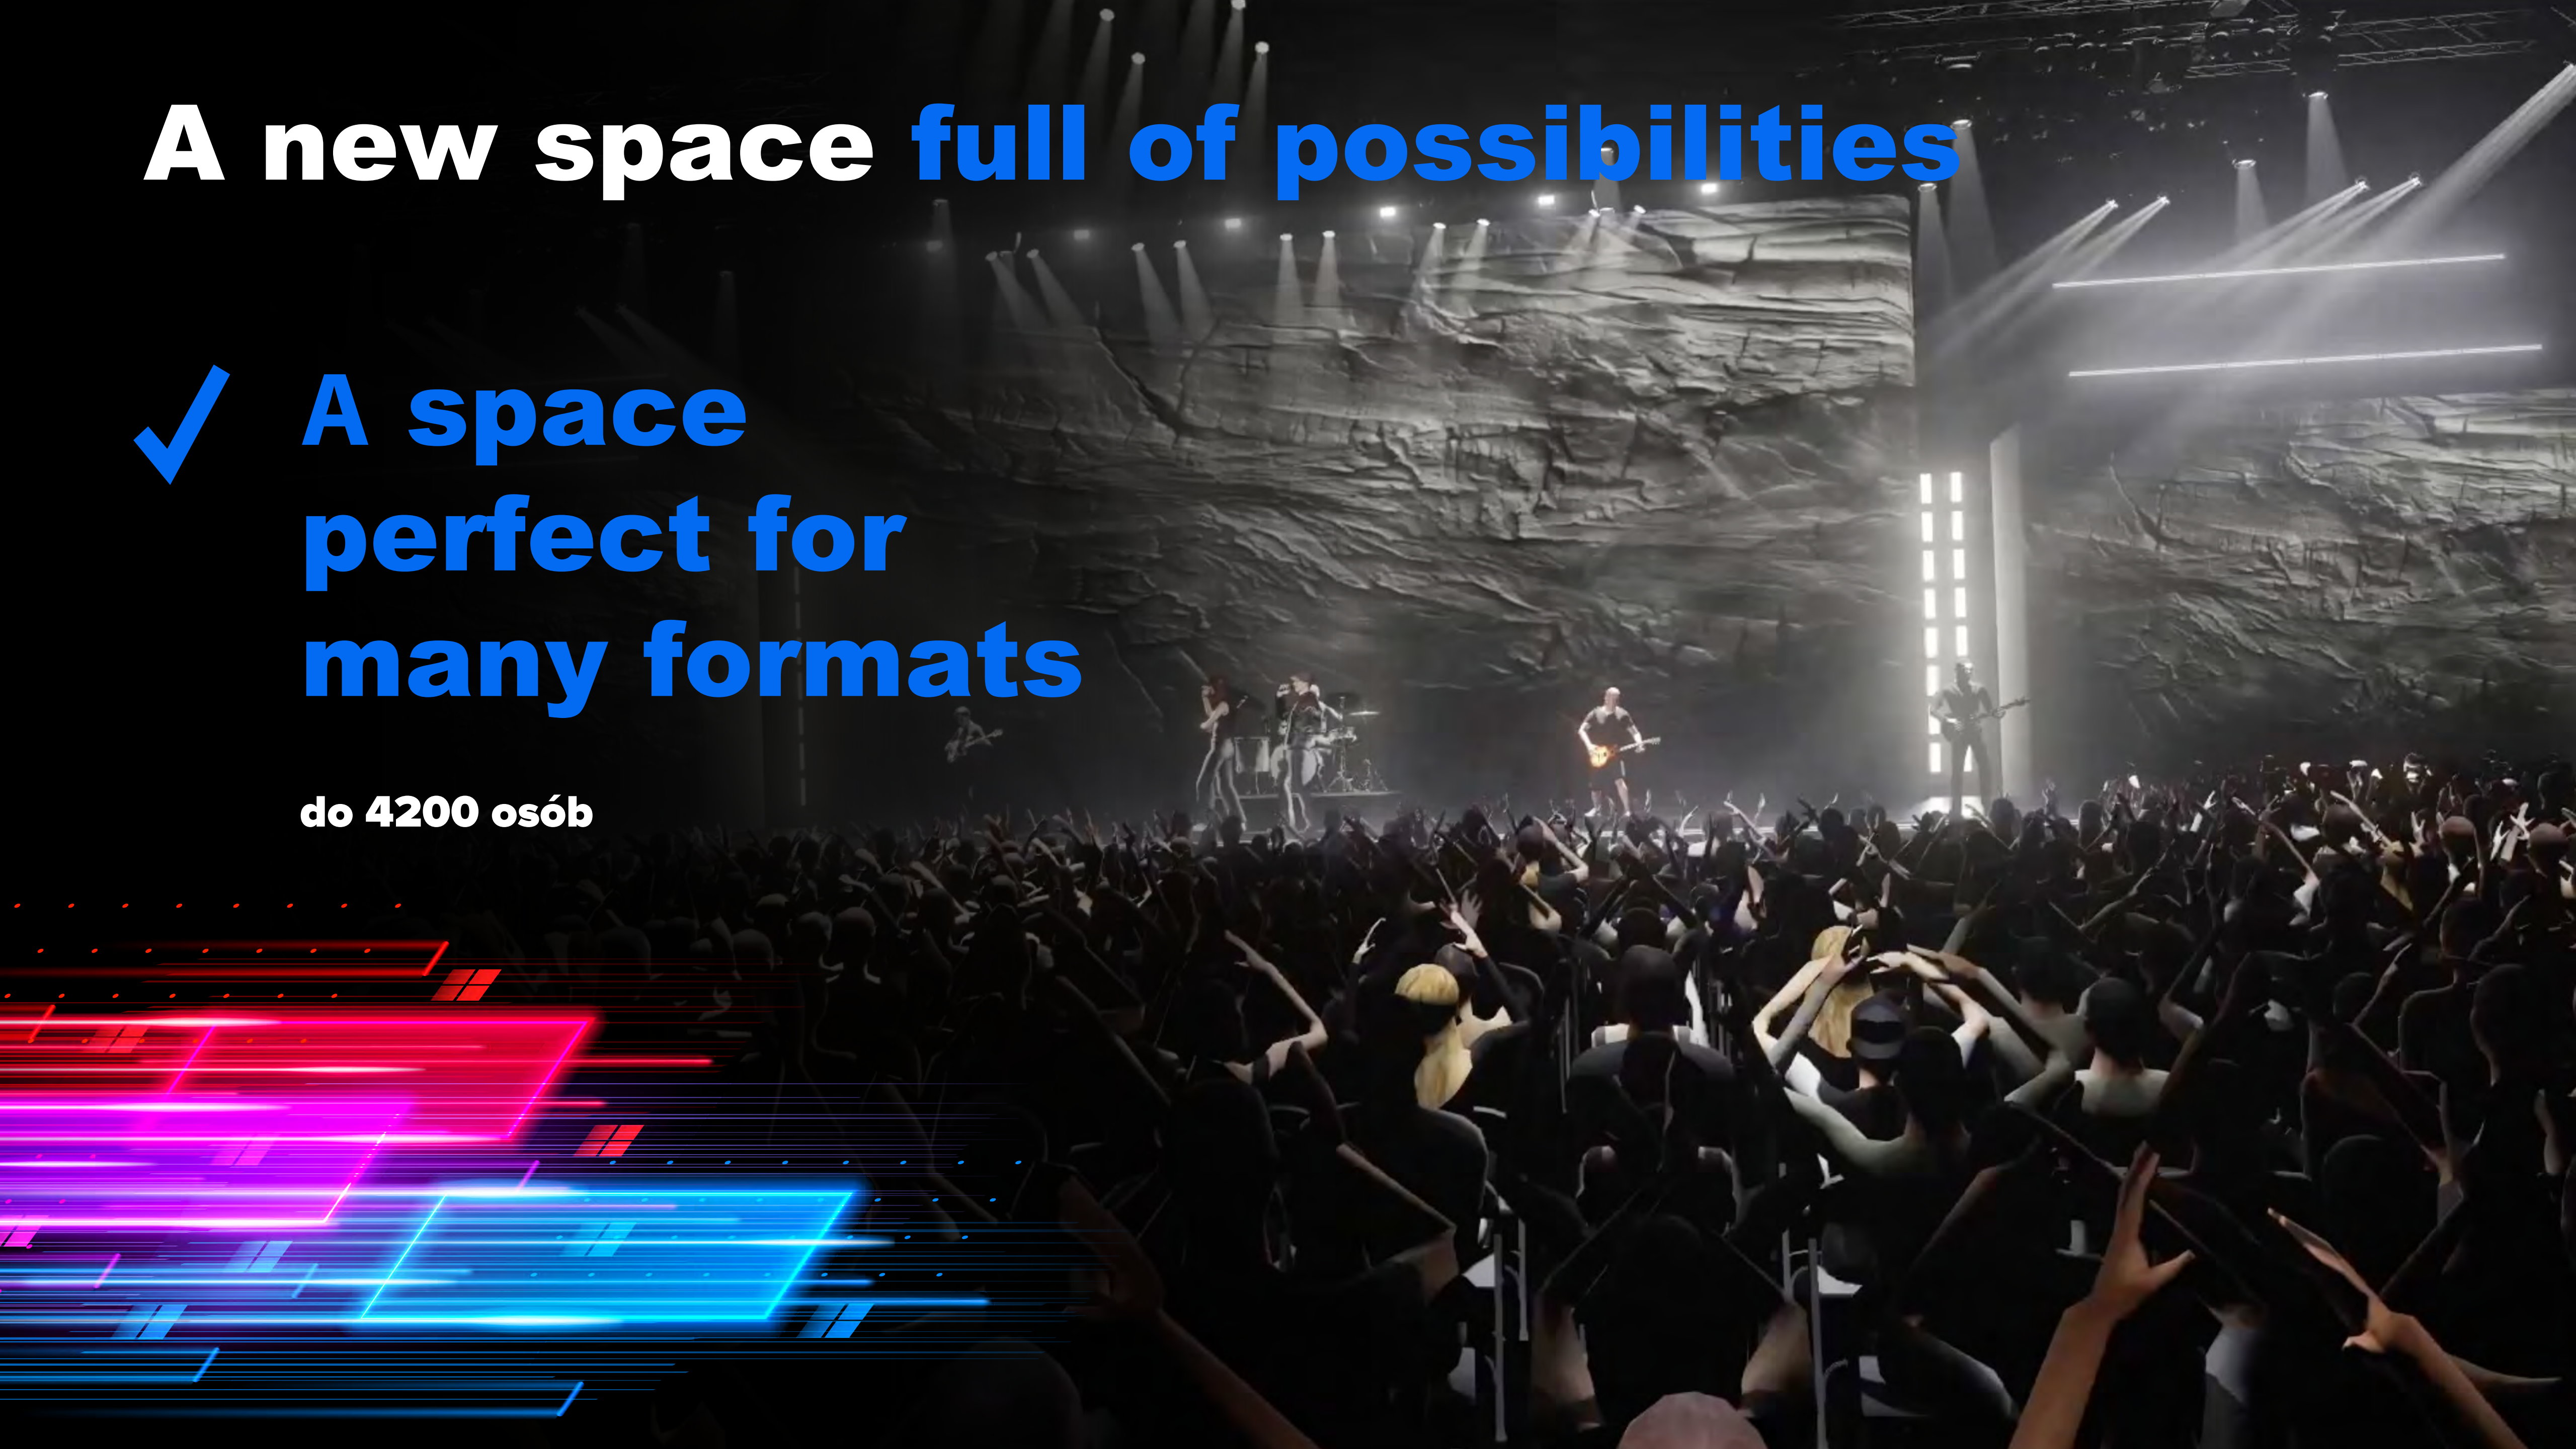

An additional advantage is the **underground parking lot with 650 spaces**, a dedicated entrance to the Pavilion from Śniadeckich Street and a nearby passage that can be used for a reception or banquet.

A new space full of possibilities

A new space **full of possibilities**

✓ **Brand presentation**

- on the stage the main screen with dimensions: 15m x 8m
- turntable on stage for car presentation
- (reinforced structure up to 3.5t)

Why is it worth organizing an event in the unique space of 7A?

Comprehensive:

There is no need to assemble and disassemble equipment, which allows for significant cost reduction and time savings.

Professional Service:

An experienced team of implementers, who know the possibilities of the place very well, provide technical support and implementation of each scenario.

Flexible Rental Options:

Our Pavilion can be rented in several variants, adapted to the specific needs of each type of event: concert, conference, elegant banquet, fashion show, product demonstrations (car access possible).
